

EU FERTILISING PRODUCTS
HOW TO CE MARK YOUR PRODUCTS?
MONDAY 23 MAY 2022, 10H-17H

WEBEX

The Fertilising Products Regulation will start applying as of 16 July 2022. The Regulation replaces the existing EC Fertilisers Regulation. The changes to the harmonisation rules are fundamental as regards both the products' requirements and the obligations of economic operators.

Are you producing or selling EC fertilisers and do you intend to continue to rely on EU rules in your activity?

Do you produce or sell fertilising products in accordance with national rules in an EU country and intend to make a change and rely on the Fertilising Products Regulation?

Then join us for this info session to find out more about the Fertilising Products Regulation.
